## Norton Commander Windows 95 15

Latest version[edit].Commander 2.01 for Windows is essentially not NC 5.5 for DOS. It's common knowledge that when Windows 95 hit the market, Symantec. Net/NC 5.5, being the most powerful version of NC, was only available under DOS, and no version of Windows supported it without additional software. Since then, Microsoft seems to have solved this problem by releasing a more suitable version of Windows on the market - Windows 98. This system works fine with Symantec.Net/NC 5.5 and other similar versions of NC, but, like Windows 95, requires installation additional software.
