Skillfully record data and skills to improve your performance. ----- The Tarnished Oath is different from every other fantasy RPG out there. We're well aware that the best fantasy RPGs are those that stick with the basis of the traditional, classic games. And this definitely is not a traditional RPG. From the perspective of a traditional RPG, Tarnished is different. 1. Tarnished is an epic fantasy action RPG. The main goal is to progress through the world, cut through the enemy hordes in battle, and reach the goal. However, many items and dungeons that are necessary to progress make the outcome of battles rather uncertain, leading to the sense of excitement. The world of Tarnished is not a traditional fantasy world. 2. Tarnished focuses on character development. You advance through battles, but the battles themselves are gradually becoming meaningless, and the aim of the game starts to shift into progressing the main character. You need to pay attention to your actions and responses, and develop your character from the perspective of a fantasy RPG. 3. Tarnished features vast content. Tarnished features a vast world and dozens of dungeons that you can explore. There are no particular limitations regarding areas you can access, and if you can see them, there is almost no limit to which you can explore them. 4. Tarnished features a number of innovations. For example, with Tarnished, we combine points representing character power with points representing equipment quality. Points representing the power of your character can be increased through acquiring experience points, while points representing the equipment quality can be increased by finding enchantments. However, there are situations in which not only points, but also the strength of your equipment, can be increased at the same time. ----- The "style" that Tarnished is designed after can be described as a novel that imitates the action RPG genre

Ongoing investigations by the DeIDOT State Trooper's Accident Investigation Unit (S.A.I.U.) concluded that a DeIDOT trailer-tractor was traveling northbound at the intersection of Route 9 (Grand Marais Road) and Route 2A (Alalkee Road) when a clearly identified, seated, bicyclist came into the intersection in front of the trailer. Trooper Thomas Lynn witnessed the cyclist/motorist accident and stopped to find out if the cyclist needed assistance. By staying with the cyclist, Trooper Lynn was able to learn the following information: • The bicyclist was alone, riding a unicycle • The bicyclist was injured • The bicycle was completely new and the accident was the bicyclist's first encounter with a moving vehicle • The bicyclist was wearing an adult-sized helmet that did not fit properly • The bicyclist was riding in the handle bars - perpendicular to the direction of travel, balancing on the ground • The bicyclist was riding eastward on Route 9 toward Alalkee Road, away from the direction of travel • The bicyclist was effectively exhausted in that she soon expired for want of air The bicyclist was transported to a local emergency room where she expired. Trooper Lynn suggested to hospital staff that an autopsy be conducted to identify the cause of death; they agreed. Trooper Lynn is seeking to charge the driver of the semi-trailer with a violation of the designated bicycle route legislation, which does not allow a bicyclist to travel upon a roadway unless a bicycle route is designated. If you or someone you know, falls victim to a serious injury when hit by a moving vehicle - or any other type of road accident - contact experienced DeID
