What's new:

- **Use your squad to gain the upper hand wherever you play. This year, Ultimate Team introduces new ways to complement your individual play.**
 - **Dominate your rivals with Dribbling Phase. After a goal is scored you can exploit the moment by using Dribbling Phase.**
 - **Grab the ball after a goal is scored and run at your opponents to gain momentum in a sprint and take on-ball actions.**
 - **Contest the penalty area with Goalkeeper Dispossession. If a goal is scored the ball carrier has the option to contest the ball. If they do, they can throw opponents off the ball with a particular tackle by the goalkeeper.**
 - **Alternatively, defend a corner as a defender to uncover attackers and clear the ball forward.**
 - **Possess the ball in the defensive half with Feint/No Kick.**

-
- **If the ball carrier commits an offence, they can attempt a feint, but the player won't be able to take on-ball actions. This power makes it easier to create attacks, and gives defenders the opportunity to win the ball and progress up the pitch.**
 - **With Cross Paths, you can pre-pick your shot, and direct the ball across the pitch with a header or set up a teammate's run.**
 - **Choose the right pass - the ability to create deceptive passing moves with your teammates ensures you're always one step ahead of opponents. Pass the ball, take a beating from an opposition defender, and even pick your ball up off the floor, for the perfect dead ball situation.**
 - **Change the game with complete team styles.**
 - **For the first time in FIFA, have complete control over your squad. Design your football team using tactics and training drills from The Journey. Build your squad with 11 different-themed kits, based on 4 traits - conservative, dynamite, all-**

rounder and unique.

- **And if that's not enough, all players have specific traits and attributes, including being versatile, fast, strong and intelligent.**
