In addition to in-game voice-overs, a variety of key features have been added. ***Please note that the game requires an internet connection to use the key features. The connection speed at the time of the announcement of Japanese launch is **5.4Mbps** (the download speed is 19.7Mbps).

Thus, as the key features are transferred by stream, they will not download due to abnormal disconnection. If this problem also happens when using LAN, have the problem reported to us.

The game is out on Sept. 25. Please play it with the Steam client, and if you have not yet created a gaming code to enjoy the discounted price, request a code from us.
