---

page for information on installation. Enter the IP ADDRESS in the "NetID" field. Enter the password for your email. Clinical applications of extracorporeal membrane oxygenation (ECMO) for the treatment of acute lung injury. Acute lung injury (ALI) is a syndrome with an increase of pulmonary capillary membrane permeability leading to edema and leukocyte infiltration. Despite great progress in knowledge on the mechanisms of ALI and development of new treatments, mortality remains high. Extracorporeal membrane oxygenation (ECMO) has been used in the treatment of ALI. In this review, we summarize the current status and future directions of ECMO in the management of ALI. Q: IOS app - how to detect if wifi or mobile data connection available
