.Q: How to say "go home" in Japanese? I need to say "go home" in Japanese. How do you say that? For example, in Chinese, you have several ways to say "go home", for example: 回家 → 回家 → 回家

回家 → 回家 → 回家 I'm sure Japanese could be similar. A: 回家 and 回家 both mean "I am hungry," but they do not "go home", as I can understand them. 回家

回家

回家

回家 The first two say something like "Getting myself home is important, but I cannot think of that when I get back." The third one would say "My first experience with Harry Potter and the black hair or Western Literary Mystery was very disappointing."

(回家 = "I read a book that was full of Harry Potter and the black hair or Western Literary Mystery and was disappointed in myself.") The fourth one could mean "After getting married, I have first read a Japanese novel 回家 and was familiar with the book."

I'm sure Japanese could be similar. Cindy Fly is an independent young female model offering a combination of traditional looks and fashion photos with a touch of sexy. Cindy Fly is a straight female looking to put her best effort to make her

Sakura to Shiro is one of the most recent stories I have read, and with this being the end of the season it is the perfect time to review it. Let us see if the season ended on a high note. I will start with the art. The art is much different from what the first two seasons had. This is the first season since season one that I enjoyed the art a lot. The art here was done much better than the first two seasons as you get better life like effects and shading. Also the character models and expressions were much better, and the way the animation was done was much better as well, it almost feels like watching a movie to be honest. I also liked how during the interactions you would get very close looks into peoples faces without them knowing. How it is done is that every time there is a close up or a kiss, every time the screen would zoom in further, this could be annoying at times, but in the end it is something that was very well done. The anime looked great during it's

animation, although sometimes there were to many backgrounds, but I also felt like the backgrounds just added to the scene. The voice acting for the main characters was also done really well, especially Sakura and Shiro. The English voice acting on the other hand was a little bit difficult to understand, but the two main characters voices were done
