pandas df.loc[conditions] - Failed to
convert data from binary format
Python novice here. I'm using the
pandas.DataFrame.loc[conditions]
method. When I run the code below,
I get the error Failed to convert
column 1 from string to float:
Insufficient precision for float Here is
the code that goes with it #tensor
columns df_wgt['Weights'] =

```
df_wgt.iloc[:, :-2].astype(float) #Get
the weights into a list wgt_list =
df_wgt.loc[df_wgt['Tensor'] ==
'concat'].Weights.tolist() #print the
list print(wgt_list) #Find the indexes
of the 1's in the list wgt_i =
np.where(wgt_list == 1.0)[0]
#Apply the weights
df_wgt['WeightedInput'] =
df_wgt.iloc[:,
:-2].astype(float).apply(lambda x:
wgt_list[wgt_i], axis=1) #Print the
new values and error message
print(df_wgt) I know that the
problem has to do with a data type,
but I can't figure out what to do
about it. Any help would be
appreciated. A: The problem is a few
values in your initial Weights column
are NaN. You can check this by:
print(np.any(df_wgt['Weights']!=
np.nan, axis=1)) In this case, the
```

result is False. You need to substitute any NaN with 0 before doing your conversions or other computations. I was able to reproduce the error with the following code:

```
df_wgt['Weights'] =  
df_wgt.iloc[:, :-2].astype(float)  
df_wgt['Weights'] =  
df_wgt['Weights'].fillna(0)  
df_wgt['Weighted
```

Open dialog window about: An error occurred while retrieving the Web page, please try again later. Thank you! You have successfully reported the problem and will be retrieved soon. If you are interested in any alternative software which can help you fix "Unable to retrieve the IStream of the requested type" error, let us know. Please feel free to contact us with details about the problem you have encountered. hopefully if i can use a script to

download an entire torrent which resulted in the error messages received in the first place. A: You will have to download the torrent yourself, then use your web browser to download the torrent file and save it on your computer. That file will have to be loaded into your torrent program to start the download. #include #include void sig_func() { std::cout Pages Thursday, January 1, 2009 Canon in D as
